ALABAMA IS THE NATION'S SEVENTH POOREST STATE.

More than 780,000 of our neighbors — including 236,000 children — live below the poverty line.

Alabama Possible is a statewide nonprofit organization that works to break down barriers to prosperity through advocacy, education, and collaboration. We influence public policy to ensure every high school graduate in our state can pursue a technical or academic credential after high school. Our programs connect Alabama's educational leaders, students, and families with the resources necessary to cultivate a college-going culture and equitable educational attainment.
